

## NCMA Quality Assurance Statements

### **Non-GMO Strains**

To the best of our knowledge, none of the NCMA strains available in the public collection are genetically modified or engineered.

Strains were isolated from the natural environment using industry standard, non-genetic, isolation techniques.

### **Strains Free of Irradiation**

NCMA strains have not been treated with irradiation.

### **Strains Free from Exposure to Sewage**

NCMA strains have not been exposed to any kind of sewage.

### **Strains Free from Harmful Bacteria**

To the best of our knowledge, none of the provided xenic strains contain harmful bacteria. Any bacteria present are part of the natural ecological assemblage.

The NCMA guarantees these statements to be accurate until the time the strain leaves our facility in East Boothbay, Maine.
